Lexington is Tina's hometown and she can't imagine raising her five year old son, Cameron, anywhere else. She is so excited to partner with Lexington Habitat to purchase a quality, affordable home – or as she calls it – her “forever palace.”

She has spent her career working in afterschool programs and child care facilities and currently works with special needs children as an intervention specialist. When she isn't working, Tina's hobbies include listening to music and spending time with her son. They enjoy doing crafts and riding bikes together. Tina looks forward to the opportunities their new home will provide to do even more activities together, “I'd love to see my son in a home with a yard,” says Tina. “He can't play outside at our apartment because he's allergic to mosquitos and our apartment doesn't spray.” Tina and Cameron will also share their new home and yard with their beloved dog, Kenzie.

When asked what she would like to say to the volunteers and sponsors who will be helping her build her home, Tina says “I can't thank them enough. I can't wait to decorate and make the house feel like a home. This means everything to me.”
